Patient: Ghost, Equine Rescue

Problem:

- Proud flesh, extensive inflammation, soreness

Previous Therapies:

- Topical mixture

K Laser Protocols:

- D8 – Equine Contaminated Wounds
- D12 – Equine Edema/Congestion

Treatment Frequency:

Single K laser treatment prior to removal of tissue

- D3 – Equine Back
- D12 – Edema/Congestion

Additional Treatments:

• De-bulked proud flesh at 9/21/07 after single K laser treatment. Procedure went well with no complications. Inflammation greatly reduced

- Began K laser Treatments on 9/25/07 with 3-2-1 frequency

Topical Medications:

- None

Outcomes:

- Wound is smaller with healthy granulation tissue and rapidly improving
- Hair is re-growing
- Inflammation greatly reduced
- Reduced soreness and improved gait

Prognosis:

- Good
